

**Drawing Amendments**

(None)

**Remarks**

This is in response to telephone interview 03/27/2007.

It was agreed that the Appeal could be ended by allowance of) claims limited to the separation assurance means by which the microdischarge array is wound with separation to maintain water flow within effective range of the microdischarge of purifying UV radiation. Counsel requested leave to claim spiral winding both for round spiral presentation and flattened spiral for rectangular box presentation

**SUMMARY**

Two claims remain. The prior art has been fully differentiated. Allowance is requested for new PClaims 25 and 26.. All other claims are canceled.
